

Emergency Notification Station ENSv1

The ENS is an ideal security solution for remote and high-risk areas. This vandal-resistant tower serves as a great deterrent to crime. An always-lit LED Blue Light mounted atop the tower provides high visibility and gives passers-by a sense of security. Emergency calls can be placed with a simple push of a button. At the same time, the LED Blue Light begins to flash, attracting attention to the location. Optional Surveillance Camera enhancements are available.
