KATALYST KADET K300NB

# Empower Your Business with High-Speed, Reliable Connectivity

NOW AVAILABLE AT **FIRST CALL WIRELESS**

## ENTERPRISE FEATURES YOU CAN COUNT ON

- Business-Grade Security
- Always-On Connectivity (Dual SIM failover)
- Wi-Fi 6 Performance (Dual-band 2.4 GHz + 5 GHz) up to 2.9 Gbps
- Smart Management & Free kCloud Management
- Rugged Hardware Reliability

## IDEAL USE CASES FOR 5G FIXED WIRELESS

- The Kadet is purpose-built for fixed wireless access (FWA) deployments where stable, high-speed 5G connectivity replaces or supplements wired broadband.
- Primary or backup internet for offices, branches, and retail stores.
- Connects POS terminals, Wi-Fi guests, and inventory systems over secure dual-SIM 5G
- Perfect for franchises and quick-serve restaurants that need PCI-compliant uptime.
- Reliable broadband for construction trailers, pop-up events, or field offices.
- Secure, VPN-enabled connectivity for remote clinics, testing sites, or mobile units.

KATALYST  
**Spark K500A**

Spark is ideal when you need flexibility: maybe remote locations, sites where power may be interrupted, or you want a router that can operate during a power event (thanks to its built-in battery). Also good for small businesses needing simple setup.

KATALYST  
**Kadet K300NB**

Kadet is ideal when you have a fixed location (office, storefront, warehouse) with reliable power, need high device capacity, robust WiFi coverage, and dual-SIM failover for carrier reliability. Because it does not include a battery, you assume mains power is stable.

| Choose this device if:   |   |
|--|---|
| You need flexibility (maybe jobsite, pop-up location, power backup needed), want "plug-in and go" with battery support choose Spark. | You have a permanent installation, mains power is reliable, you need high capacity WiFi, many connected devices choose Kadet. |
